

BARTON.

At the tender age of 1 year, 1 month and 17 days, the only son of Prof. and Mrs. Harper P. Barton of Hustontown was taken by death from the fond parents on the 12th day of April, 1918. The child had whooping cough about a week, when it suddenly became violently ill. Loving parents, faithful nurses and skilled physicians were alike powerless to stay the arch enemy of mankind. Real sympathy for Prof. and Mrs. Barton can come only from those who have passed through a like ordeal.
