

### Child Drowned in Spring.

Tuesday of last week the 16 months old child of Mr. and Mrs. Ulysses Deshong, of Pleasant Ridge, fell in the Spring and was drowned.

Some time in the afternoon the mother ascended a cherry tree to pick cherries and left the child with its larger sister. Some time afterwards she noticed the absence of the least one and asked the older one where it was. The sister looked in the Spring, saw it lying in the water, drew it out and hastily ran and informed the mother who sprang out of the tree, to the ground, a distance of 30 feet. The limbs broke the force of her fall or she would probably have been killed or maimed.
